Professional Summary

Computer Science undergraduate with strong knowledge of software engineering, full-stack web development, and problem-solving. Skilled in developing responsive web applications using Angular, Bootstraps, React.js, Node.js, Express.js, MongoDB, and Python. Familiar with Data Structures & Algorithms, OOPs, DBMS, SQL, REST APIs, testing, debugging, and deployment workflows. Eager to begin a career as a Software Engineer and contribute to building scalable and efficient solutions.

Skills

Programming Languages: Python, C, JavaScript (ES6+), TypeScript

Frontend Technologies: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Angular

Backend Technologies: Node.js, Express.js, RESTful APIs

Databases: MySQL, MongoDB

Core Concepts: Data Structures & Algorithms, OOPs, DBMS, OS

Tools: Git, GitHub, Visual Studio Code

Deployment Platforms: Vercel, Netlify

Education

Bachelor of Technology Computer Science Engineering

2022 – 2026

S. B. Jain Institute of Technology, Management & Research, Nagpur

CGPA:-8.38/10

Internship Experience

Web Development

Dec 2025 – Jun 2026

ICEICO TECHNOLOGIES Pvt Ltd

Nagpur, Maharashtra

- Developed responsive web pages and reusable UI components using React.js and Tailwind CSS for internal and client-facing applications.
- Delivered, tested, and optimized applications for better performance and reliability.

Python Programming

Jun 2024 – Jul 2024

Codemate IT Services Pvt Ltd

Nagpur, Maharashtra

- Solved coding challenges on Hacker Rank to strengthen problem-solving, logical thinking, and programming skills.
- Debugged and Optimized Python applications using core programming concepts

Projects

AI-Based Career Predictor and Resume Builder for Engineering Graduates | Python, Flask, Machine Learning, React.js

- Built an AI system to recommend career paths for engineering students.
- Created features including personalized dashboards, mock tests, chatbot, and ATS resume builder.

HR-EMS Portal – Employee Management System | Angular, TypeScript, Bootstrap

- Developed a comprehensive Employee Management System featuring modules for Employee, Department, Leave, Attendance, Payroll, Profile, and Settings management.
- Implemented authentication, CRUD operations, search, pagination, and responsive dark/light theme support.

Job Portal | React.js, Node.js, Express.js, MongoDB

- Produced a full-stack job portal using React.js, Node.js, Express.js, and MongoDB with authentication and role-based access control.
- Crafted a job posting, search/filtering, and application management.

Sri Bindu Mahadev Mandir | React.js, Node.js, Tailwind CSS

- Developed a full-stack web application for temple donations with secure online payment integration.
- Generated an admin dashboard to manage transactions, monitor donations, and visualize data effectively.

Certifications

IEEE Conference Publication: *AI-Based Career Predictor and Resume Builder for Engineering Graduates*

Programming in Java | NPTEL, IIT Kharagpur

Design and Analysis of Algorithms | NPTEL, IIT Madras

Introduction to Machine Learning | NPTEL, IIT Madras

Cyber Security and Ethical Hacking | NSDC, VEDIC
